the GREAT
GROWLY
READING
ADVENTURE

Starting July 1, 2023

This year marks our first book, *Begin's*, ten year anniversary, and to celebrate we will be holding The Great Growly Reading Adventure: an online summer reading camp, where we will read the book during the month of July. The camp will be hosted on our website, with giveaways and prizes, “behind the scenes” looks at the writing process and illustration, opportunities for readers to send in questions and to have their Growly artwork displayed.

Adventure is waiting ...

About *Begin*

For centuries, the bears of Haven have lived quiet lives high in the mountains at the edge of the great Precipice. That all changes for a young cub named Growly when he receives a mysterious message. With just his backpack and glider, Growly sets out on a desperate journey to find his grandfather's long lost friend ...and to find a way back home.

Written for the 8-12 year old reading level, *Begin* is also a captivating read aloud for ages 4 and up, and will appeal to anyone who appreciates stories of adventure and friendship.

Reading Adventure Testimonial

Our school was fortunate enough to have a school-wide summer read using Mr. Ulrich's first book in The Growly Series called *Begin*. When we reached out to Mr. Ulrich he was swift to respond, engaged in what our ideas were and helpful in putting together a bundle of things for each of our families to take home in May of 2022. This included a signed book from him.

When communicating with Mr. Ulrich he was professional, personable, and inspiring. We enjoyed his book as a school so much that we invited him to come and spend two days at FRA with a book signing for parents one evening and a full day of engaging, interactive sessions with all of our

students from PreK3 through 4th grade. We even made a day out of it with a camping theme, a picnic-style lunch outside, a scavenger hunt and of course, he had a special lunch with some of our avid 3rd and 4th-grade readers where he got to talk to them about his book and answer their questions.

We thoroughly enjoyed our time with Mr. Ulrich and look forward to reading the next book in his adventure.

“The Growly Books are wholesome stories that enchant young readers even as they stir a sense of adventure and intrigue.”

My six year old son LOVED these books! He then gave them to his cousins, who ate them up as well. Now, upon his recommendation, our book club of 20 students varying in grades k-6 are studying the books. Raving reviews from every student! *Amazon Review*

What I love most about this book is the overwhelming standard of love and friendship that is presented in the book via tradition, family, society, culture, innocence, sacrifice, challenges and friendship. This coming of age tale provides a complex, scary and adventurous view of the world in a way that gives strength through hard work, relationships, diligence and bravery. My 5 and 7 year-olds LOVE this book. *Amazon Review*

In a world with so much negativity, it is so refreshing to have a story that demonstrates how people (or animals, lol) can rise above their circumstances and choose to love one another and make the right choices. It was a pleasure to read, and a wonderful example for my son (and me, for that matter!) on how we can live our lives. *Amazon Review*

This is a beautifully written adventure. Fantastic imagery, and courage and loyalty woven so thick in this easy, wonderful read. A breath of fresh air, even amidst disappointments and fears. A must read for young kids! *Goodreads Review*

This is our children's favorite book to read aloud! It is full of adventure & suspense but easy enough for kids ages 4-11 to really enjoy!! *Amazon Review*
